<u>6</u>									<u> </u>				
8						how do I find the cor	rect GCC option that to	ells if to stop after the compilation phase? in linux					
9													
10									_				
11 12						(S)3/W(I) 8			00				
13						to find the correct u	cic opnorimitations it t	o intop after the complication phase on Linux.	(2.00)				
14						. Open the GCC Man	unt						
15								by typing the following convinant in your terminal:					
16 17						Total Call Household Street	THE PERSON NAMED IN	Curyona					
18						- Table		C contrass					
19						man gcc							
20													
21						. Search within the 8	Internal						
22 23						THE RESERVE OF THE PARTY OF THE		an search for specific terms.					
24						200 St E 10 TO TO THE PARTY OF							
25						* Press '/' (forward stash) to instade a search.							
26						* Then, type a knyword stilled to stupping after the compilation, like "compilation proper".							
27 28						and press "Enter".							
29						Look for the Option:							
30						After searching, you should find a section or a line that describes the option to alop after							
31						The compilation pho	ion.
